

ccf part of

Homo sapiens

microglial cell

primary lens fiber

Mueller cell

diffuse bipolar 4 cell

rod bipolar cell

diffuse bipolar 6 cell

ON-blue cone bipolar cell

invaginating midget bipolar cell

diffuse bipolar 1 cell

diffuse bipolar 3b cell

diffuse bipolar 3a cell

flat midget bipolar cell

diffuse bipolar 2 cell

pigmented ciliary epithelial cell

non-pigmented ciliary epithelial cell

corneal epithelial cell

corneal endothelial cell

keratocyte

telocyte

iris pigment epithelial cell

lens fiber

secondary lens fiber

epithelial fate stem cell

foveola of retina

capillary layer of chorioid

pericyte

retinal blood vessel endothelial cell

retinal pigment epithelial cell

retinal cone cell

retinal rod cell

midget ganglion cell of retina

parasol ganglion cell of retina

A2 amacrine cell

starburst amacrine cell

glycinergic amacrine cell

wide field retinal amacrine cell

retinal bipolar neuron

ciliary epithelium

ciliary muscle

corneal epithelium

corneal endothelium

anterior stroma of cornea

iris epithelium

unmyelinated nerve fiber

cranial neuron projection bundle

scleral lamina cribrosa

lens epithelial cell

retinal neural layer

lens nucleus

lens cortex

basal lamina of epithelium

macula

optic chorioid

mural cell

vasculature of retina

pigmented layer of retina

outer nuclear layer of retina

eye photoreceptor cell

ganglionic layer of retina

retinal ganglion cell

inner nuclear layer of retina

GABAergic interneuron

amacrine cell

retina horizontal cell

medium field retinal amacrine cell

retinal bipolar neuron

ciliary body

cornea

iris

epithelial cell

iris

neuron projection bundle connecting eye with brain

sclera

epithelium of lens

suspensory ligament of lens

lens of camera-type eye

lamina of spiral limbus

eye

macula

vasculature of eye

conjunctiva

retina
